

Fall Protection Competent Person

Duration: 2 days (16 hours)

The Competent Person course is designed for managers, immediate supervisors of authorized persons or individuals working at height. The training also includes Competent Inspector.

Overview:

This course is for individuals that are responsible for the supervision, implementation and monitoring of a fall protection program. This course is a pass/fail program, it incorporates extensive classroom and hands-on training and both written and practical examinations that are based on the requirements of both US OSHA Regulations, ANSI Z359.2 standard and CSA.

Topics Discussed:

- Fall protection system assessments
- OSHA, ANSI Z359.2 standard and CSA regulations relating to fall protection
- Fall hazard elimination and controls
- Fall hazard surveys and procedures
- Detailed equipment inspection
- Development and implementation of a Fall Protection plans and programs
- Traditional Fall Protection (e.g. handrails, guardrails, etc.)
- Fall restraint systems
- Fall Arrest systems (inc.: personal fall arrest systems, nets, safe work zones and more)
- Fall Protection rescue procedures
- Selection and use of non-certified anchorages
- Competent Person responsibilities

Students will expand their knowledge and ability to identify hazardous conditions, develop programs and make equipment selections to properly deal with fall hazards. Upon successful completion of this course, the student will receive a certificate acknowledging they have met or exceeded OSHA, ANSI and CSA requirements as a Competent Person.

Cost: \$985.00
